Supplement to the

"Proceedings of the Indian Academy of Sciences"

INDEX TO VOL. XLIX—(B)

AUTHORS' INDEX

Abichandani, C. T.	..	*See* Tanaka and others.
		Present position of fertilizer experiments in rice in India, 319.
Banerjee, Sachindranath and Sarkar, Anjali		Spore-forms in sporophores of *Ganoderma lucidum* (Leyss.) Karst., 94.
Bhatnagar, O. P.	..	*See* Singh and others.
Butani, Dhamo, K.	..	Sugarcane mites—a review, 99.
Butany, W. T.	..	*See* Ghose and Butany.
Chacko, M. J.	..	*See* Narayanan and others.
Chalam, G. V.	..	Botanical improvement of rice with special reference to wide crosses, 309.
Chandrasekhar, N.	..	Blood proteins of some Indian freshwater fishes, 377.
Deodikar, G. W., Thakar, C. V. and Shah, Pushpa N.		Cyto-genetic studies in Indian honey-bees, I, 194.
Desai, A. D.	..	Conditions of rice growing soils and means of improving fertility by application of manures and fertilizers, 331.
Ghose, R. L. M. and Butany, W. T.		Botanical improvement of varieties—general characters of Indian varieties and the application of genetics to rice improvement, 287.
Israel, P.	..	Latest and effective methods of controlling insect pests on rice, 363.
Kaur, R. B.	..	*See* Narayanan and Kaur.
		See Narayanan and others.
		See Rao and Kaur.
Krishnamoorthy, Ch.	..	Improving soil fertility conditions with special reference to minor elements, 338.

Lal, Ratan ..	*See* Narayanan and others.
Mulgaonkar, Anand, G. and Sreenivasan, A.	Alterations in rat serum proteins in relation to dietary proteins and B vitamins, I, 408.
Murty, Y. S. ..	Studies in the order piperales, V, VI, 52, 82.
Narayanan, E. S. and Kaur, R. B.	A new species of *Microphanurus* Kieffer, 136.
Narayanan, E. S., Lal, Ratan, Rahalkar, G. W., Sethi, G. R. and Saxena, P. N.	Labelling of adults of an insect parasite *Bracon gelechiæ* Ashmead with radioactive phosphorus (P^{32}), 149.
Narayanan, E. S., Rao, B. R. Subba and Chacko, M. J.	*Aholcus euproctiscidis* Mani (Scelionidæ: Hymenoptera), an egg parasite of *Euproctis lunata* Walker, 74.
Narayanan, E. S., Rao, B. R. Subba and Kaur, R. B.	Host selection and oviposition response in *Apanteles angaleti* Meusebeck (Braconidæ: Hymenoptera), 139.
Nayar, M. Chandrasekharan	On gastrulation in chelonia (*Geœmyda trijuga coronata* Anderson and *Lissemys punctata granosa* Schœpff), 402.
Padmanabhan, D. ..	The development of endosperm in *Lantana camara* L., 420.
Padmanabhan, S. Y. ..	The present position and control of rice diseases in India, 349.
Patnaik, S. ..	*See* Tanaka and others.
Pawar, M. S. ..	Botanical improvement of rice varieties with special reference to crosses to improve agronomic characters, 303.
Prasad, N. ..	*See* Vyas and Prasad.
Prasad, R. Raghu and Tampi, P. R. S.	A note on the first phyllosoma of *Panulirus burgeri* (de Haan), 397.
Rahalkar, G. W. ..	*See* Narayanan and others.
Ramakrishnan, T. S. ..	Notes on some fungi from South India, VII, 124.
Ramiah, K. ..	Statement of problems and means of increasing rice production, 281.
Rangarajan, K. ..	Light penetration in the inshore waters of Porto Novo, 271.
Rao, B. R. Subba ..	*See* Narayanan and others.

Rao, B. R. Subba and Kaur, R. B.		Studies on Indian Mymaridæ, I, 227.
Sadasivan, T. S.	..	The problem of the blast disease of rice, 1.
Sarkar, Anjali	..	*See* Banerjee and Sarkar.
Saroja, Miss K.	..	Studies on the oxygen consumption in tropical poikilotherms, II, 183.
Saxena, P. N.	..	*See* Narayanan and others.
Seshadri, B.	..	The effect of insulin on the protein-bound amino acids of the pituitary of the fish—*Ophicephalus striatus* Bloch., 264.
Sethi, G. R.	..	*See* Narayanan and others.
Shah, Pushpa N.	..	*See* Deodikar and others.
Sharma, Shakuntala	..	*See* Singh and others.
Singh, Inderjit, Sharma, Shakuntala and Bhatnagar, O. P.		Absence of secretion of acetylcholine on stimulation of nerves in an unstriated muscle, 129.
	..	Some evidence against the chemical theory of neuromuscular transmission, 369.
Singh, Kamala P.	..	The algal flora of Vindhyan formations of the Mirzapur District, U.P., 66.
		The Myxophyceæ of the Kumaon Hills, U.P., India, I, 161.
Sreenivasan, A.	..	*See* Mulgaonkar and Sreenivasan.
Sriramulu Vijayam	..	Amino acids during the development of *Oryzias melastigma* (McClelland), 108.
Sundaralingam, V. S.	..	A systematic account of the South Indian Characeæ, 7.
Sundara Raghavan, R.	..	Chromosome numbers in Indian medicinal plants, III, 239.
Tampi, P. R. S.	..	*See* Prasad and Tampi.
Tanaka, A., Patnaik, S. and Abichandani, C. T.		Studies on the nutrition of rice plant (*Oryza sativa* L.), III, IV, V, 207, 217, 386.
Thakar, C. V.	..	*See* Deodikar and others.
Tonapi, G. T.	..	A note on the respiratory system of the male of *Dorylus labiatus* Shuck., 87.
Varma, R. Prasanna	..	Studies on the succession of marine algæ on a fresh substratum in Palk Bay, 245.

Venkata Ram, C. S. .. Production of growth-promoting substances by Fusaria and their action on root elongation in *Oryza sativa* L., 167.

Vyas, S. R. and Prasad, N... On the cultural methods of differentiation of *Rhizobium* from *Agrobacterium radiobacter*, 115.

Studies on *Rhizobium* from *Zorina diphylla*, 156.

TITLE INDEX

Aholcus euproctiscidis Mani (Scelionidæ: Hymenoptera), an egg parasite of *Euproctis lunata* Walker (Narayanan and others), 74.

Algal flora of Vindhyan formations of the Mirzapur District, U.P. (Singh), 66.

Apanteles angaleti Muesebeck (Braconidæ: Hymenoptera), host selection and oviposition response in (Narayanan and others), 139.

Blast disease of rice, the problem of (Sadasivan), 1.

Bracon gelechiæ Ashmead, insect parasite, labelling of adults, with radioactive phosphorus (P^{32}) (Narayanan and others), 149.

Characeæ, South Indian, a systematic account of (Sundaralingam), 7.

Chelonia (*Geœmyda trijuga coronata* Anderson and *Lissemys punctata granosa* Schoepff), on gastrulation in (Nayar), 402.

Dorylus labiatus Shuck., male of, respiratory system, a note on (Tonapi), 87.

Fishes, some Indian freshwater, blood proteins (Chandrasekhar), 377.

Fungi, some, from South India, notes on, VII (Ramakrishnan), 124.

Fusaria, production of growth-promoting substances by, and their action on root elongation in *Oryza sativa* L. (Venkata Ram), 167.

Ganoderma lucidum (Leyss.) Karst., spore-forms in sporophores of (Banerjee and Sarkar), 94.

Honey-bees, Indian, cyto-genetic studies in, I (Deodikar and others), 194.

Lantana camara L., the development of endosperm in (Padmanabhan), 420.

Light penetration in the inshore waters of Porto Novo (Rangarajan), 271.

Marine algæ on a fresh substratum in Palk Bay, succession, studies (Varma), 245.

Medicinal plants, Indian, Chromosome numbers in, III (Sundara Raghavan), 239.

Microphanurus Kieffer, a new species (Narayanan and Kaur), 136.

Muscle, unstriated, stimulation of nerves in, absence of secretion of acetylcholine (Singh and others), 129.

Mymaridæ, Indian, studies, I (Rao and Kaur), 227.

Myxophyceæ of the Kumaon Hills, U.P., India, I (Singh), 161.

Neuromuscular transmission, chemical theory of, some evidence against (Singh and others), 369.

Ophicephalus striatus Bloch., the fish, pituitary of, the effect of insulin on the protein-bound amino acids of (Seshadri), 264.

Oryzias melastigma (McClelland), development of, amino acids during (Sriramulu), 108.

Oxygen consumption in tropical poikilotherms, studies, II (Saroja), 183.

Panulirus burgeri (de Haan), the first phyllosoma of, a note on (Prasad and Tampi), 397.

Piperales, order, studies in the, V, VI (Murty), 52, 82.

Rat serum proteins, alterations in, in relation to dietary proteins and B vitamins, I (Mulgaonkar and Sreenivasan), 408.

Rhizobium, differentiation of, from *Agrobacterium radiobacter*, on the cultural methods of (Vyas and Prasad), 115.

Rhizobium from *Zornia diphylla*, studies (Vyas and Prasad), 156.

Rice, botanical improvement of, with special reference to wide crosses (Chalam), 309.

Rice diseases in India, the present position and control of (Padmanabhan), 349.

Rice growing soils, conditions of, and means of improving fertility by application of manures and fertilizers (Desai), 331.

Rice improvement, botanical improvement of varieties—genetical characters of Indian varieties and the application of genetics to (Ghose and Butany), 287.

Rice, insect pests on, latest and effective methods of controlling (Israel), 363.

Rice plant (*Oryza sativa* L.), nutrition, studies, III, IV, V (Tanaka and others), 207, 217, 386.

Rice, present position of fertilizer experiments in, in India (Abichandani), 319.

Rice production, statement of problems and means of increasing (Ramiah), 281.

Rice varieties, botanical improvement of, with special reference to crosses to improve agronomic characters (Pawar), 303.

Soil fertility conditions, improving, with special reference to minor elements (Krishnamoorthy), 338.

Sugarcane mites—a review (Butani), 99.
